

Facilities

Contributed by

Noor Elaine Farm was originally a cattle grazing farm that has been transformed into an outstanding equine facility. Noor Elaine Farm boasts state of the art facilities including a 16 horse stable, an 8 horse automated horse walker, spacious and well sized paddocks, solar energy water pump, gravity water system and vet shed. Natural attributes include an underground spring, rich loamy soil and plentiful trees of the robust box forest kind.

The farm prides itself on treating its horses in a manner where the horse's health and well being is considered of paramount importance. Supplementary feed is administered twice daily. Noor Elaine Farm's management ensures that paddocks are in good order and not crowded.
